SUPER PREMIUM PET FOOD

WET FOOD
& SNACKS

WET FOOD

Our wet food recipes are prepared using more than 90% pure meat (**chicken, salmon, duck, rabbit and beef**) as the only source of animal protein to facilitate digestion, especially in dogs with a sensitive stomach. The vegetables, carbohydrates and oils, which are sourced from carefully selected and certified European farms, add important vitamins, fibre and minerals for development in puppies and adult dogs.

All the ingredients are prepared fresh to preserve their natural meat and vegetable flavours, as well as their high nutrient content.

None of our recipes contain any artificial colourants or other agents because Mother Nature herself has everything your dog needs.

& SNACKS

Optimanova Snacks are delicious, functional and hypoallergenic because they have only one source of animal protein, making them the ideal choice for rewarding all dogs with food allergies, delicate skin or sensitive stomachs.

Your dog will enjoy these delicious and healthy snacks made from **duck, salmon, rabbit and lamb meat**, with no gluten or cereals.

Our snacks are cold pressed to conserve all the nutrients and their delicious flavour.

SELECTION

DOGS

WET FOOD

Wet food range
delicious and exquisite!

Complete food for puppies of any breed or size.
